Veneto	47% Polyester, 30% Acrylic 18% Viscose, 5% Linen	WS	100,000	●		●	●							

*Made with 100% natural fibers

All Podium fabrics are tested and rated for residential use. Specific cleaning and usage instructions for each fabric must be followed and can be found within cover specifications on podium-furniture.com.

FEATURE NAME	DEFINITION
Soap & Water Cleanable	This fabric is easily cleanable with a mild soap and water solution.
Bleach Cleanable	This fabric can be wiped or spot-cleaned with a combination of household bleach and water, without weakening the fibres or altering the texture or colour.
Stain Resistant	This fabric resists stains from spills and dirt.
Repels Liquid	Water beads to be easily wiped away before penetrating the fabric.
Indoor UV Rated	Fabrics with a higher UV rating that are fade-resistant.
Woven in North America	Like all of Palliser's products, this fabric is made in North America.
Recycled Content	This fabric contains recycled content, like plastic water bottles, or upcycled olefin fiber.
Eco Friendly	These fabrics are better for the planet; made with lower chemical and energy emissions, and reduced water consumption.
Leather Alternatives	The luxurious look of leather with the performance benefits of fabric.
Pet Friendly	This fabric is pet-approved, made to better withstand pet's every day wear, inherently durable and stain resistant.
No Added Treatments	Chemical coatings do not contribute to the performance of this fabric.
Specialty Fabric	A distinctly unique cover, from our curated collection of high-quality, high-value, and trend-inspired leathers. Restrictions may apply.
